LONDON. July 9. (By International News Service.)—An attempt by the head of the Church of England, the archbishop of Canterbury, to prevent any divorced person whose wife or husband may be living from being remarried in any state church or chapel has been defeated.

The archbishop offered an amendment to the Buckmaster divorce bill pending in the house of lords to give effect to such a church debarment.

But he was defeated by one vote, the opinion being that such a provision would be the first act in a contest between the church and the state, which is not desired. In addition, it was argued that it would be unjust to innocent persons who may become divorced.

Children were lined up mob formation for a block when a policeman appeared. He made his way through the throng and when he reached the storo closed the door and questioned Malles.

Malles, who named his store Constantinople, said he was fond of children.

Malles said he came to this country 28 years ago from Greece, where he was born. He said he was at one time in a hospital in Worcester, Mass., because of mental trouble.

#### Spain Is Being Ruled As Russia Was Under Czars

MADRID, July 8.—Spain has been ruled since March 24, 1919, by its successive governments in the same way as Russia was ruled under the old des-

as Bussia was ruled under the old daspolic emperors, asserts the liberal newspapers.

"On that date the constitutional guarantees were suspended in all the
provinces," says La Libertad, "and till
this date have never been restored.
Even when the general elections were
in progress public rights under only one
of the articles of the constitution, and
then only the second paragraph of article 18, were permitted to be exercised—that is to say, the right of holding quiet public meetings.

"This permission was useless by itself without being accompanied by the
others consecrating the same precept
of the fundamental law, since what
could be the object of holding meetings
while the prohibition was still enforced
against the free expression of opinion
and while the press continued muzzled?"
The capsorship continually exercised

The censorship continually exercised not only on Spanish papers but on telegrams to the foreign press also is sharply criticized.
